President's Report

Valued Chamber Members:

Winter weather tenaciously is hanging on. Even at that we have a busy summer planned. Newmont's Long Canyon Mine located east of Wells just past the Pequops going east is moving forward.

Last year's marketing grant suggested to put the emphasis on promoting tourism. The objective: Put "heads in beds" so the local businesses can benefit. In order to achieve this we are using \$10,000 granted to the Chamber as follows:

- THS-Videos to do a promotional of Wells surrounding s and businesses. This video will be shown at trade shows domestic and interna-

tion.

- Update the Wells webpage showing events and places. Anyone who has scenic pictures is welcome. Send them to wellschamber@wellsnevada.com
- Better and more signage to promote downtown
- Billboard located by Ely and Rogerson

The interest in our community is shown in the increase of visitors and request for sending literature. We include our community events calendar.

Also our Facebook page is popular. We appreciate your continued support.

Thanks you,

Yvonne Stuart, President

By Jolene Supp

City Manager

The City of Wells Master Plan has been completed. Please see the website for information—cityofwellsnv.com.

Community Clean Up and Pride in the Community is something I would encourage everyone to work on. May is free dump month. Wed-Sun 10-2:00

Long Canyon continues to move forward with construction. The second round employees should be coming on site in by fall sometime.

The City is working with housing developers to create new and diverse housing —both rental and ownership.

Businesses on the Horizon

The Golden Gate Petroleum project has been granted a building permit. The Hampton Inn is very close to permit completion also.

The next Chamber meeting is scheduled for May 20 at noon
